VOL. XVII.

STANFORD, KY. FRIDAY, MAY 17, 1889.

NO. 28

GEORGE O. BARNES.

On His Way to Kentucky to Lecture.

God is Love and Nothing Else.

PRAISE THE LORD.

SANIBEL ISLAND, FLA., May 6, '89.
DEAR INTERIOR—I received a letter from a gentleman in Kentucky, making some very sensible, practical inquiries, and I will answer them here, for the benefit of himself and others, who may wish information. He asks:

1. How long does a man have to live on the land and what improvements are necessary? Ans. Six months, in order to get it at \$1.25 per acre; or 5 years without a single continuous absence of 6 months, to get it for nothing.

2. Are you in a healthy locality? Ans. Yes, I think so.

3. Is there more land near you that can be taken up? Ans. Sanibel has been pretty well "picked over," but there are some odd lots, a few 80s and some entire claims of 160, in less desirable portions of the island, yet to be obtained. I can't speak from personal knowledge of their value. I have not yet been on that end of the island. There is nothing "near me." The nearest vacancy to me is a 40-acre lot, 4 miles away.

4. What is the cost of setting out an orange grove? Don't know. Never set one out. This is too far South for best results with oranges, though I am going to try them. Lots of books to tell about this crop. The best I know, and the one I most frequently consult, is "Florida Fruits," by Helen Harcourt, published by Morton & Co., Louisville. That, and a sister volume entitled "Home Life in Florida," are simply invaluable to a settler here.

5. What crops can be raised there? No one knows yet, but I believe most of the tropical fruits will thrive on Sanibel. I believe Cuban tobacco will flourish here; and all "garden stuff" grows "by leaps and bounds," as Mr. Gladstone says. I believe the "knowing ones" can do well here, growing early vegetables for Northern markets.

6. What kind of society surrounds you? Ans. As quiet, orderly, intelligent a lot of homesteaders as one could wish. Thank the Lord the "skalawags" have not gained a foothold and we hope never will.

7. What is your nearest town? Can a man do anything for a living while on his land? I mean can he work for other men, or get into some business while living on the land? Ans. There is the real rub, in homesteading, here. If you have not enough to build a rough house and keep you for six months, at least, and \$1.25 per acre to pay after that, I could not advise any one to come. Punta Rassa across San Carlos Bay, is only a hotel, empty in summer, and would be non-existent soon, but that it is the terminus of the marine cable to Havana. Nothing to do there. St. James City (1) on Pine Island is also a hotel and store, nothing more. Nothing to do there, that I know of. The nearest real town, is Fort Myers—18 miles up the Caloosahatchie. A delightful little fruit embowered hamlet, waiting for a "boom" that may or may not come. Don't know what a man could do there, either. Besides, the settler has to "settle" and live on his claim. You couldn't hold it and have a home elsewhere. Every niche of Sanibel soil would have been greedily gobbled by this time, could such a homesteading have been accomplished. The land office authorities are stringent on this point and rightly so. I think some of our homesteaders will have to abandon their claims on account of nothing to do for a "living." In a year the real difficulties will be over and the land will afford a support.

8. When is the best time to go to Florida? Ans. Any time after the 1st of December. A few weeks sooner, would, ordinarily, be just as safe.

9. What is the cost of a railroad ticket to your place? From \$40 to \$50, as rates rise and fall.

10. Can you raise any kind of grass for hay? Ans. I should say yes; but that would have to be tested by experiment. The agricultural resources of Sanibel have, largely, to be guessed at. But soil that produces such luxuriant wild grasses as stud the prairie around us, in every direction ought to bring anything that, the climate would suit.

These are the fairest answers I can give to the above questions. I wish I could say nothing but what is favorable, but there are certainly two sides to homesteading.

And the mosquitoes and sand-flies are certainly formidable. The latter, only come, now and then, in mysterious swarms, according to their habits; of which I am ignorant. The former, like the poor, are "ever with us." Lying awake, fighting them, even under a bar, the other night, the thought came to me, "Why not double this net and try what

it would do. They certainly crawl thru' the ordinary mesh, if single." Next morning the thought of the night took shape and proved an inspiration. Hear it! ye dwellers by the water courses, where the festive mosquito also abides. In this case double bar prohibition does prohibit and I know it. I can't exactly reason out why this petty burglar of the night watches, having crawled through one bar does not repeat the operation and scale the second line of defense. But he doesn't. Perhaps, being a cautious beast, he has a sense of being entrapped that quite makes him lose his head, when he finds himself between two gauntlet walls. Or why he don't crawl out, as he came in, passes my comprehension. But the creature don't. In point of fact your tormentor who gets inside the single bar fails to make his exit, as all know. You will see him vainly trying to escape. But like the trapped turkey, he forgets how he got in. So you will find many marauders between the two nets vainly trying to beat a retreat.

For the sand-fly, only cheese cloth, a stuffy, suffocating investiture, will do. They have no consciences that grow alarmed, after effecting a burglarious entry. They crawl anywhere, everywhere. Down your back; up your sleeve; burrow to the roots of your hair; go for the cuticle "wherever found," and nip so ferociously when they "get there" that you marvel, beyond measure, how so small a thing can bite so hard. I will stop writing about them, lest they avenge themselves at their next visitation.

What do you do before going to bed? Wash "smudge" them. The "smudge" is dear to the Floridian. It is just an iron or tin pot, with lighted chips, smoking freely, but not blazing. Smoke is the one thing that, nor mosquito, nor sand-fly, can endure. Nor human, either, when long continued. We smoke ourselves till we can't stand it a moment longer. Then put the smudge away till the baffled blood-suckers discover that it is gone. That is not very long. Then we have it again, to drive them back once more. Thus the running fight continues till we drop our double curtains or, "sand-fly night," our cheese cloths; and rejoice to listen to the angry hordes of our tormentors, howling out their disappointment on the wrong side of the fortifications—for them.

Do you ask me what we are going to do in this straight? I have a little plan, that, I think, is of the Lord; and if it continues to impress me as of divine origin, I will probably tell you in my next. Till then, adios!

Ever in Jesus, GEO. O. BARNES.

MAY 9.—The "little plan" is this: I shall, God willing, follow this letter to Kentucky, pretty soon. We have excursion tickets, good to June 1st. I shall make straight for Stanford and begin, at my old home, a lecturing tour, which will, I hope, furnish the "sinews of war" in this homestead fight. I shall thus soon find out how many friends I have in "Old Kentucky." I can think of no better way than this to raise the money I need; and no less burdensome a method of appeal to the kindness of a community, that, I am convinced, will not disappoint me, in my present hopes. Of course some will disapprove; and some will think I am coming down from a lofty platform to a lower one. But I must "gang my ain gait" in this, and not regard the criticisms of friend or foe. I surely ought to know what I am about, by this time.

For 12 years, when friends would ask me, in the anxiety of love, "What would become of your wife and children if you were taken away?" I invariably answered, "The Lord will provide." In all that time I never once asked Him how He would do it. I only knew He would, in some way. And now that He has pointed out the way, clearly—so clearly that I have never had a doubt the way was His—I accept this thought of lecturing, to raise the needed funds, as an inspiration. And I will go to work, for a few months, in that line of service, just as cheerfully as I ever went to preach the heart of Jesus.

For, beyond this brief lecturing tour, I see years of itinerant work, in the old familiar line, less hampered by lack of needed funds than ever before; and a place of retreat when weariness or old age comes on, that I have never had; but which the dear Lord knew was needed.

As far as I can see ahead now, I will leave Sanibel on Friday, the 17th; spend Sunday in Bartow and leave for Kentucky on Monday, the 20th. If I can get the Hall the next Monday and Tuesday, 27th and 28th, for my Anglo-Israel lectures, you may advertise me, for those dates. I can preach for you on Sunday, the 26th, once, at time and place deemed most convenient; perhaps at 3 p. m. will interfere less with other services, and the Court-House will be the best place to gather.

I think it will be appropriate to make a beginning at my old home; and I hope Lincoln will give me a "send-off."

From there I think I will go to Lancaster, Richmond, Lexington, Paris, and so on. Haven't any programme yet. The lectures are only 2 in number. 1. The Lost Tribes. 2. The Vanished Sheep.

tre. Admission to each 25 cents. I hope to give value received, in the lectures; while a large attendance will be as delicate a compliment as the lecturer can ask.

Yorick leaves by the steamer that takes this letter. Dear Yorick! What a comfort he has been and how grievously we shall miss him, even for the week that intervenes before we shall follow him! How unselfishly he has worked for others; how cheerfully he has endured homesteading hardships; and how his presence has been a constant joy to us all, I may not tell with pen and ink. God bring him in safety to his dear ones; and crown his exertions here with the success they merit. His house is nearly ready for occupation, and will be in time to receive his family in the early fall.

The ducks have come; 15 of the daintiest, "outside tootsies" that ever rewarded patient mother-love. Only one egg went bad. Another broke shell, but failed to struggle into life on Sanibel. Last night a wild cat dragged one of the Kentucky hens off her brood and only a trail of scattered feathers marked the way she was taken off.

Our gallant "cock that crows in the morn and wakes the maidens all forlorn" has had his harem reduced to three by the coons and other "varmints." So even Sanibel has its drawbacks. A good steel trap is a pressing desideratum.

There is but one of the "fowls that fly in the open firmament of heaven" that reminds us of Kentucky. That is the cheerful meadow-lark, that abounds on our beautiful island. I don't see why partridges wouldn't flourish here too. I will try and introduce them, if I can procure a covey in Kentucky, or elsewhere. The trend of the coast takes such a sharp turn between us and Yorick that the sun rises out of the sea for us and sets in it for him. The Gulf is playing in her quiet role to-day. The glassy surface only gently rippled here and there, and the waves just kissing the shore without lashing it; like a field beauty caressing the cheek it has just smitten. It is in a purring mood now. To-morrow it may be roaring like a very lion, or bellowing like 10,000 "Bulls of Bashan," as it breaks upon the beach in mad charges.

We made a discovery yesterday. We have on our shores millions of genuine "whitebait." We had them for supper last night and breakfast this morning, and I am not mistaken in the dainty delicacy. It is not a minnow, but a tiny dwarf fish, that Englishmen go wild over in the "merry month of May." And even in the staid Parliament of the mightiest empire on earth goes annually to Greenwich to eat its whitebait dinner, and enjoys this toothsome, if tiny, morsel, served up in the well-known style. We have only to take an extemporized cheese cloth scoop-net, and dip it into the margin of the sea at low tide, when the little creatures are driven in by the larger fish, and they can be caught by the half-bushel in a few minutes. The retreating water also leaves many thousands stranded to be eaten by the busy sea birds that line the beach and feed greedily upon them.

We have put the May F. up in her summer quarters; taken her mast out; stored her rigging at Palm Ranch; and gotten her in good shape for our approaching departure. The little boat has been a great comfort to us, coming and going for needed supplies; bearing light loads of lumber; towing rafts; and making herself generally and busily useful.

As the time of going away draws nigh, we linger and hesitate to go from the scene of our three-months' diligent labors. If we could only afford it we would stay. But there is no use talking. We must go; and so we are reluctantly making up our minds to leave.

Many and many times will we think of our island home, while far away from it, for a season. So soon has it linked itself to our earthly existence; and so quickly has it become very dear to us. We naturally love what has cost us much. That is one reason we are so near the great heart of Jesus.

Ever in Him, GEO. O. BARNES.

There have been more chickens destroyed by cholera since the war than there were men killed during the war. Ganter's chicken cholera cure will soon stop that. It is sold and warranted by McRoberts & Stagg.

You Cannot Afford

At this season of the year to be without a good reliable diarrhoeal salve in the house, as cramps, colic, diarrhoea and all inflammation of the stomach and bowels are exceedingly dangerous if not attended to at once. One bottle of Beggs' Diarrhoea Balsam will do more good in cases of the kind than any other medicine on earth. We guarantee it. A. R. Penny, Druggist.

Eupessy.

This is what you ought to have, in fact, you must have it to fully enjoy life. Thousands are searching for it daily, and mourning because they find it not. Thousands upon thousands of dollars are spent annually by our people, in the hopes that they may have this too. And when it may be had by a few we guarantee that Electric Balsam, if used according to directions and the use persisted in, will bring you Good Digestion and oust the Demon Dyspepsia and install instead Electric Balsam and all diseases of Liver, Stomach and Kidneys. Sold at 25c and \$1 per bottle by A. R. Penny's drugstore.

DANVILLE, BOYLE COUNTY.

The street sprinkler was ready for work Monday morning, but the much-needed rain, which came Sunday evening, made its appearance useless.

—Miss Annie Hackney left Wednesday for Willington and other points in Ohio, to spend the summer. J. H. Outer's mother is visiting him. Tom Dunn, of Pineville, is here on a visit to friends and relatives. He is well pleased with Pineville and says the place is still booming.

—Did you ever know the members of a ball club that was defeated in a game, but what they would give some reason for the defeat? One of the members of the Centre College club was asked why they let the INTERIOR JOURNAL beat them at Stanford last Friday and this was his reply: "The blue-grass on the grounds was so high we could not get over it, not being used to it, while the Stanford boys were." We will see how that excuse holds out when the L. J. come over here to play them.

—An investigation was made here last Friday by Mr. Hormley, of Cincinnati, as to the building and cost of water works. He thought the cheapest way was to dam Clark's Run, which is near the C. S. depot and that the cost would be somewhere between \$80,000 and \$90,000. Water works have been discussed a great deal of late by our people and now since they know the views of a man who has had about 30 years' experience, they can take them and ponder them at their leisure.

—Rev. Steve Holcomb, of Louisville, is drawing large crowds at the Methodist church by his simple and earnest talks. It is not his learning or his eloquence, for he says he never went to school but six months in his life, and half of that time he played "hookey." It is he never had been a gambler or a drunkard, and could not tell such a startling experience nobody would go to hear him. We think if ever there was a man in earnest he is. It is certainly not for money he is preaching, for he says he was a successful gambler, making about \$1,500 a month at the time of his conversion, and since then he had to wash dishes at a hotel for a living.

—HUBBLE.—C. R. Harris bought a sow and shoats of Wm. Mock for \$20. Miss Maggie Swinebroad set a chicken hen on 11 turkey eggs and hatched out 13 turkeys and 1 chicken. B. F. Engleman and C. R. Harris sold their fat hogs to Tom Woods for \$4.15 to \$4.25. Harris also sold some heifers at 24 cents and Engleman sold some cows for \$2.40. George Engleman has a mare 26 years old which brought three mule colts at one time and two are living now. Tilford Alexander sold his On Time stallion colt to Sam Baughman for \$235 and bought a mare of Baughman for \$150. R. L. White is at Lexington on a business. Dr. Traylor has bought a few crops of tobacco for which he paid from 7 to 10 cents. Wesley Eubanks found some of his chickens with heads eaten off. So a trap was set to catch the intruder and when it was visited next morning a very large frog was caught, having feathers and bones in his mouth. Bud Cox's mother has come to live with him. A fish was caught near Frank Rigney's which measured 9 inches from eye to eye. Good rains have revived the farmers of this section so that everyone we meet is ready to buy something and ask with a smile from ear to ear, "Have you anything else to sell?" The fly is in some crops of wheat here. Some have planted corn over, but most all have a good stand. The hard wind blew down many trees and moved Owsley's tobacco barn from pillows. W. G. Dunn is preparing to train horses at S. E. Owles' s. Jesse Walters and sister, Charlie Adams and sister and L. G. Hubble and sister went out Saturday night on a serenading expedition and visited many of our good neighbors, filling the neighborhood with melody. S. M. Spoonamore has purchased a new double seated carriage on account of his daughter.

—At Avondale, Ala., Filbert Hawkins killed his wife with an axe while she lay asleep in bed.

—There are said to be over 30,000 deserters from the army and the president will be urged to issue a proclamation relieving most of them of the charge.

Buckler's Arnica Salve.

The best salve in the world for cuts, bruises, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, corns and all skin eruptions and positively cures piles, or no pay required. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For sale by A. R. Penny, Stanford, Ky.

A Woman's Discovery.

Another wonderful discovery has been made that too by a lady in this country. Disease fastened its clutches upon her and for seven years she withstand its severest tests, but her vital organs were undermined and death seemed imminent. For three months she coughed incessantly and could not sleep. She bought of us a bottle of Dr. King's New Discovery for consumption and was so much relieved on taking the first dose that she slept all night, and with one bottle she has been miraculously cured. Her name is Mrs. Luther Lutz. Thus write W. C. Hamrick & Co., of Shelby, N. C. Get a free trial bottle at A. R. Penny's drugstore.

SEMI-WEEKLY INTERIOR JOURNAL

STANFORD, KY., MAY 17, 1889.

W. P. WALTON.

WITH SUPPLEMENT.

A SENSATION has been created by a sheriff of California telegraphing to Frankfort for a description of Dick Tate and asserting that he thought he had found him in the Lower California gold regions. The lower court has already found that Tate's sureties are not liable for his defalcation and prominent lawyers have said that if he should return they were satisfied that the law was not far-reaching enough to cover his case to the infliction of any punishment upon him. Tate had just as well return, if this be true, unless he still retains enough of self-respect to dislike to face the friends and the party he has irretrievably wronged. We hope the "prominent lawyers" don't know whereof they affirm, however, and that "Honest Dick" will be brought home in handcuffs to serve many a year within the walls of the penitentiary.

A CORRESPONDENT at Washington with Judge Morrow on the ground telegraphed: "The names of Col. A. M. Swope, Col. T. Z. Morrow, Col. Walter Evans and Col. John D. White are never heard here. Those gentlemen seem to have entirely disappeared from the political horizon." The reason is clear. They have not a paid literary bureau, like Bradley, Jolly, Goodloe, Wilson and the like and their every movement is consequently not chronicled like those of the latter worthies. It is simply disgusting to read some of the dispatches about how the great Bradley is working for his friends, and playing the devil generally. But there is a great deal in knowing how to work the correspondents and our Billy knows how to do it to perfection.

The material for Depew's oration, delivered at the Washington Centennial, was prepared after weeks of research by the Rev. E. C. Towne, of Cambridge Mass., an old college chum. Depew, who got all the glory, if there was any in the performance, thought that his friend had performed the work gratuitously and was surprised to have him send a bill for \$800 for his services. He didn't pay it, and now Mr. Towne threatens to sue him for \$1,500 unless a check is at once forthcoming. Depew has his millions, but he dislikes to give any of it up as much as the next one, tho' it is likely that he will wish he had attended to Towne's claim before he gets thro' with him.

It is announced that Mr. E. O. McCormick, general passenger agent of the Monon Route, has been appointed to the same position on the C. H. & D. road with a salary of \$10,000. The rapid rise of the gentleman shows the possibilities of the American boy, who has the git-up-and-git evidently possessed by Mr. McCormick. He commenced his work on the railroad as a water boy for a section force. He went in to win and his promotion was steady till now he is at the top in his line of business, and is recognized as one of the best passenger agents in the country.

A REPORT comes from Washington that Harrison will make the negro, Lynch, of Mississippi, first auditor of the treasury, but it is highly improbable. Harrison's treatment of Dudley shows that he is an ingrate and such a man is not likely to recognize in any prominent degree the men without whose vote his election would not have been possible. That the negro vote made Harrison president can not be gainsayed.

The slow motion of the courts is demonstrated in the Myra Clark Gaines case. Fifty years or more ago she entered suit to recover land unlawfully held by the city of New Orleans. Mrs. Gaines and all of the original lawyers and judges have gone the way of all flesh and there are few people living who were witnesses in the case, but the Supreme Court of the United States made a final order in the suit this week awarding the executors of Mrs. Gaines \$576,000 against the city.

WHEN David Dudley Field first crossed the Atlantic in 1836 in a sailing vessel it took 25 days. His second crossing was in 1850 in the fastest steamer of the times and it took 12 days. Last week he came across in the City of Paris, which made the run in several hours less than 6 days. The inventors of the double screw propellers say they intend to make a vessel maintain a speed of 550 miles a day across the ocean and the Paris exploit seems that they will do it.

THE Louisville Times is condoling with Cobb, prohibition candidate for State treasurer, because the most powerful temperance lecturer in Kentucky has temporarily retired from the raging stump on account of a little engagement at home. Let's see, its 2½ months till the election. Cobb needn't despair therefore. The good lady will be at work for him long before August.

THE republicans of Pulaski have re-nominated Eli Farmer for the legislature. Eli is far from being a Moses and lays but little claims to statesmanship, but that he will get there goes almost without saying.

As Indiana man is quoted as the author of the information that if the small white worm which may be found at the root of a dog's tongue on the under side is cut out there will be no danger from hydrophobia from him. This may or may not be true. The surest plan to adopt and one that never fails is to cut the dog's tail off just behind his ears. Treated in this way there is absolutely no danger of the animal having the hydrophobia or of giving it to any other creature.

THE student, Hardin, murderer of Old Janitor Bush, of the State College, three times as old as himself, was acquitted at his examining trial on the grounds of self defense. Such a decision seems a mockery of justice, but Kentucky is too used to them to be surprised at anything a judge or a jury will do.

TANNER whines because he claims that he is persecuted by democratic newspapers. Thieves raise the same row when they get caught in the meshes of the law. Let him cease to loot the treasury and he will have no cause to whine.

MONTANA has elected delegates to her Constitutional Convention and a democratic majority of 5 shows up very beautifully. The State that produces such a horse as Spokane could hardly be other than democratic.

NOT a single bone had been thrown to the hungry hounds of Kentucky, according to the last reports from Washington. The situation is becoming painful—to them.

NEWS CONDENSED.

The State Dental Association meets in Louisville June 4th.

A carpet-bagger named Fordyce has been appointed postmaster at Bowling Green.

W. P. Bacon has been appointed postmaster at Owenton and R. H. Hurst at Jackson.

Michael Hope will succeed W. A. Pugh as postmaster at Pittsburgh, Laurel county.

Dr. Dave Yandell has been elected president of the American Association in session at Washington.

A colored woman named Wilson and her daughter were killed by lightning Monday at Cave City.

The Supreme Court of the United States Monday decided the Scott Chiense exclusion act constitutional.

The republicans of Pulaski county nominated James Denton for County Judge to succeed the late Judge Tarter.

Bishop, the noted mind reader, is dead. He had recently married a second wife, a month or so after being divorced from the first.

The negro who set fire to the Park Hotel, Louisville, with the avowed object of roasting the inmates alive, got 18 years for his fun.

Four car loads of beer were confiscated at Burlington, Ia., under the prohibitory law. The consignors will sue under the Inter-State law.

Capt. George Petry, of the Shelby Guards, died of pneumonia, contracted during the visit of the Kentucky militia at the recent Washington centennial.

Margaret Kendricks, a colored woman residing near Hopkinsville, gave birth to twins, both of them girls—one perfectly white and the other black.

Relatives of 23 miners who were killed in an explosion in the mines at Nevada, Mo., March 29, 1888, have brought suit for \$100,000 against the company.

The High Graded School at Somerset advertises for bids for 6-20 bonds in dimensions of \$500. They cannot be sold under par and there are \$12,500 of them.

Samples of potters clay and white sand from Waco, Madison county, has been analyzed and chemists say it will make glass as fine as the imported French plate glass.

The count of the \$84,000,000 in the New York sub treasury showed a loss of \$35, resulting the finding of some counterfeit notes that had escaped the eye of the receivers.

Father Boyle, a Catholic priest, is under arrest at Raleigh, N. C., for raping his 15-year-old organist and it has created great excitement. The offense is a capital one and is not bailable.

James Kelley, of Lexington, who went to New Brunswick, N. J., to meet a "green goods" man, blew the gas out in his room on retiring and woke up where all suckers go when they die.

Prof. St. Clair, the aeronaut, in attempting to give his "leap from the clouds" at Houston, Texas, lost his grip on the parachute and fell 300 feet to the earth, breaking every bone in his body.

At Memphis, Tenn., George Ward shot and killed his wife and then killed himself, because she wouldn't live with him after he gave her a loathsome disease. He was the son of double first cousins.

The census begins June 1 next and ends June, 1890. The attorney general has decided that the census office is outside the pale of the civil service law and Secretary Noble is rapidly filling all the places in it.

J. J. Dubose, Judge of the Memphis, Tenn., Chancery Court, has been impeached as a result of a bitter quarrel with Attorney General George B. Peters. The grounds are that he had fought a duel and killed his man.

The supreme reporter of the Knights of Honor states that there are 127,000 members and 2,500 lodges in the U. S. and that last year the death benefits amounted to \$3,210,000. The order also gave \$1,000 to the yellow fever sufferers.

The republicans of Pulaski have re-nominated Eli Farmer for the legislature. Eli is far from being a Moses and lays but little claims to statesmanship, but that he will get there goes almost without saying.

LONDON AND ALTAMONT.

Our B. M. Visits Them and Tells Our Readers All About It.

Monday was a great day in London. Both circuit court and county court convened and besides these two attractions there was that never failing draw, a republican convention. The yeomanry for miles around gathered there and the crowd was the largest for years. The county court, as regards business, was a farce, but the circuit court goes in for a two-weeks' term with a heavy docket. The convention referred to above was held to select delegates to the convention at Louisville on the 20th, when the republicans will go through the formalities of nominating a candidate for treasurer. Business on Monday was good; the merchants sold lots of goods; the hotels fed the hundreds and lastly the newspaper men, including the I. J. man, did a big business, thus causing the several members of the tripod to forget their cares at home and wear a broad grin on their honest, but careworn faces.

London, the place I learned to love two years ago, when sickness kept me there a week or more, and where as clever a set of people live as exist on the globe, is doing herself proud in the way of tearing down old landmarks and eyecores and replacing in their stead modern and handsome buildings for either dwelling or business purposes as the case may be. Growing tired of her sleepy appearance, she seems to have awakened to the times and a spirit of enterprise is even felt in the atmosphere. Seven or eight splendid residences have been built in the last few months and as many more are under construction. A number of business houses have also been erected including the \$14,000, three-story brick of Faris & Co. Several business enterprises have lately been put in operation and more are talked of, another fact that London has determined to shuffle off the lazy coil that several years ago seemed to have surrounded her, and march valiantly to the foremost.

The newly appointed postmaster seems to have been a wise selection as nowhere is there a murmur of objection. Judge Weaver is as clever a republican as ever lived and if Bob Jackson, the best postmaster the town ever had, has to step down and out, there is some consolation in knowing that he is to be succeeded by so elegant a gentleman as the jovial judge is.

It is surprising to see what an immense amount of goods are shipped to this place. It is the distributing point for 15 or 20 inland towns, or rather towns of the railroad, and as high as 10 car-loads are left daily. They are taken away in wagons and are often hauled as far as 100 miles. The ox is the favorite animal for these long trips and six stout fellows to each wagon can pull enough goods for an ordinary store. No reins are used on them, but they are managed by talking to them and the drivers can make them perform their duties as well as the circus man his trained horse.

About the only complaint that can be made of London is the fearful streets and pavements that are in her limits. It is indeed a pity that so good a place, populated by so good a people, should let so small an item mar the beauty as well as pleasure of it. It would take but a small amount to McAdamize the streets and it would improve the appearance of the town wonderfully. In wet weather it is the next thing to an impossibility for a man to walk on them and the ladies stand little or no chance.

By the way, the mention of ladies here reminds me that London, and Laurel as well, are particularly blessed with pretty women. They are as pretty as "Falcon's" ideal woman and the following couple which comes to my mind is not inappropriate to them:

"The mountain girls are elegant and are something on the hustle, They've thrown aside old-fashioned hoops, but still stick to the bustle."

They are commanded on doing the last two things and even if the latter is not in strict adherence to Dame Fashion, it is certainly an improvement on the present style.

Mrs. Lucy Williams, the milliner, desires me to say to her patrons that never before was her stock so complete as at present and that now is the accepted time for the ladies of London and vicinity to make a selection of their spring hats.

A great many of the "big-bug politicians" on the republican side of the fence are attending court, including Col. W. O. Bradley, who is the general centre of attraction. The less brilliant lights swarm around him and hardly give him time to eat his meals. It is truly a great thing to be great.

Col. C. Crooke, of the Altamont Coal Co., the cleverest of coal kings, invited me to visit his town in the interest of the I. J., and after doing London all the harm I could, I accepted his invitation.

The first time I ever worked the Altamont miners Col. Crooke rendered me great assistance and has continued to do so each trip, placing me under more lasting obligations to him. Although attending to enough business for a dozen men, this clever gentleman has time and again deserted all and gone around to his hundreds of miners and helped me add many a name to the INTERIOR JOURNAL's thousands. Were I destitute of appreciation or were I to even attempt to forget the thousands of courtesies Col. Crooke has shown me, there would still arise in my memory a feeling of gratitude as well

THE LOUISVILLE STORE !

Main st., Stanford.

M. SALINGER, Manager.

as a desire to reciprocate some of his many kindnesses. This world is not filled with such men as Col. Crooke and it is a pleasure, inexpressible, to come in contact with a man so possessed of those qualities that go to make up a gentleman. Long live the good colonel and may the coal business add thousands to his already accumulated snug fortune.

A new mine has been opened since I was here before and a 20-ton engine has been substituted for the mule for conveying the coal from the mine to the tip-house. It is just two miles from the new mine to the town where the tip-house is located and "Lula," the engine, named for Mrs. Lula Nield, pulls with ease 75 of the 15-bushel cars that run in the mine. It is business in the whole sense of the word and the road is managed with engineer, firemen and brakemen, as sure enough railroads are. I made several trips with Engineer O'Neill who is as gentlemanly a man as ever sat at a throttle, and enjoyed greatly the thrilling ride in the engine. "Lula" is a beautiful engine, with lots of brass, which is kept as shiny as a gold dollar. She runs like a top and has a whistle as sharp as the K. C. engines. At 5:50 in the morning Engineer O'Neill pulls the whistle cord and at 6 the little cars are filled with miners on their way to work, and the "train moves on." It is pleasing to see with what decorum everything is done and is proof of good management, from Col. Crooke's presidency to Bank-Boss Wilson.

The track which runs to the new mine is a model of neatness and accuracy. Every tie is well set and all the s'me length and the timbers are all of the very best. The route is a continuous fill or cut save 1,300 feet which is spanned by a 45-foot trestle. There is a cut about the same length which varies in depth from 15 to 35 feet, and it took 25 men 14 months of constant work to complete. It was an immense outlay of money to build this line, but the superiority of coal which Col. Crooke is putting on the market will yield him returns more than equivalent to the expenditure. Then the vein is extraordinarily thick and the output is greatly increased, not speaking of its unexhaustibility.

Bank Boss Taylor Wilson, who has been with Col. Crooke some 15 years, took me on an excursion through the mine and acquainted me with the mysteries therein. Our conveyance through consisted of a mule, a car and a couple of miners lamps stuck in our hats, Mr. Wilson having kindly furnished me with regalia for the occasion. The mine, which is a piece of Mr. Wilson's civil engineering, is hexagon shaped with two sides open and in the trip of a half mile under the surface varies from 100 to 400 feet. It is a fine piece of work and experienced engineers say that Mr. Wilson's first attempt at the business was a remarkable success. Our readers, or most of them, are too well acquainted with coal mines for me to attempt a description, but of the several I have been through Col. Crooke's takes the cake. There is fully a mile and a half of the track in the darkness of the mine and sufficient room for a thousand men to work, none being in the others' way. Each man has his room and there digs his coal and loads his cars uninterfered with by the rest. Air and water pipes run through the entire mine and are operated by a couple of immense engines on the outside. There is every convenience that money can supply and the Altamont miners have all advantages to make money and as a general thing do. Mr. Wilson was exceedingly clever in pointing out the numerous things of interest and made my trip pleasant as well as profitable, although several of the miners threatened to make us get out of our car and dig awhile for them. My host's acquaintance that money can supply and the Altamont miners have all advantages to make money and as a general thing do. Mr. Wilson was exceedingly clever in pointing out the numerous things of interest and made my trip pleasant as well as profitable, although several of the miners threatened to make us get out of our car and dig awhile for them.

PERSONAL POINTS.

Mrs. B. F. Waller is visiting friends at Pineville.

Major H. A. Evans was called to Louis ville Wednesday.

Mr. W. B. Holderman is out again after a week's illness.

Mrs. Garfield Elkin is visiting Mrs. John M. McRoberts, Jr.

Miss Jennie Bibb, of McKinney, is the guest of Miss Maggie Bibb.

Mrs. R. Burnett, of Winchester, is visiting Mrs. J. P. Davis.

Rev. and Mrs. John M. Bruce are the guests of Mrs. W. T. Tyree.

Mr. R. C. Warren attended the burial of Judge McKeen at Frankfort.

Mrs. John D. Bates, of Lewisport, sister of Mrs. A. F. Feland is her guest.

Miss Rachel Allison, of Georgetown, is with her sister, Mrs. Stephen Burch.

Miss Lucy Beazley, of the Milledgeville neighborhood, is visiting friends here.

Mr. Jacob Hackney, of London, was in town yesterday, on his way to Paint Lick.

Robert McAlister went to Louisville Wednesday to bring home Little Martha who is sick.

Mrs. W. B. Feland and her pretty daughter, Miss Letta, are guests of Mr. and Mrs. A. M. Feland.

Misses May Helm, Annie McKinney and Annie Alcorn are visiting Miss Jennie McKinney, near McKinney.

Mrs. H. H. Stith, of Millersburg, who has been the guest of her aunt, Mrs. Morris Evans, for several weeks, returned home Wednesday.

Robert S. Lytle started to Harper, Kas., yesterday morning in response to a telegram that his mother, Mrs. Judge Lytle, was dangerously ill.

Mr. W. H. Higgins left Tuesday to attend the General Assembly of the Cumberland Presbyterian church at Kansan City, to which he is a delegate.

YESTERDAY'S Louisville Commercial says in its Washington dispatches that Gen. W. J. Landram is dead sure for the pension agency. He is a mighty good man and would fill the office admirably.

CITY AND VICINITY.

PLANTS of all kinds for sale by O. J. Newland.

Twenty new patterns hemstitched flounces. Severance & Son.

Fruits and confectionery better and cheaper at R. Zimmer's than any other house in town.

New goods by the thousands just received, which will be sold at astonishingly low figures at the Louisville Store.

A LAWYER and an ex-marshall "fell out and fit" in our office Monday, but they were parted before any damage was done further than a few scratches.

WHILE the office of legislator goes beginning almost, a half-dozen gentlemen are already feeling the pulse of the people with the hope of being elected to the Constitutional Convention.

The editor of this paper is a miserable old cripple and gray hairs are fast taking the place of his former raven locks, but the girls continue to remember him and he is happy, notwithstanding. One of the prettiest in the county sent him a bouquet yesterday, the beauty of which is only rivaled by her own bright face.

SOMETIMES ago a petition was presented to the county court for the opening of a county road in the Holdan's mill neighborhood and viewers were appointed. The scheme met with so much opposition that when the case came up for final action before Judge Varnon Tuesday none of the advocates appeared though the town was full of opposers, and the petition was denied.

THE Barbourville News says that Hezekiah W. Hall, of Harlan C. H., who shot and killed James Fields in that town and is now in jail at Stanford, has had an ambition to murder some one for years and now that he has gratified that ambition the next Circuit Court there should do society a favor by returning a verdict of "guilty" against him and have the sheriff hang him till he is dead.

THE question whether or not John Newland got pay for working convicts while he was marshal, seems to be settled that he did not. When he took a contract for any job or put in time at manual labor he was paid for it as any other man. In an article objecting to paying an extra man to do what one ought to do, we had no intention to reflect on Tim Mershon. He makes a good officer, but the question is can Stanford afford to employ two men in the present state of her finances and in these days of alleged freedom from lawlessness?

MILK SHAKE at R. Zimmer's.

FRESH home-grown strawberries at \$1.50 a pound.

FRESH fish every Tuesday, Thursday and Saturday. M. F. Elkin.

A BRAIN new stock of China, Glass and Queensware just received at A. A. Warren's "Model Grocery."

JUDGE JOHN EDMISTON has been appointed postmaster at Crab Orchard vice J. W. James removed because he was a democrat.

The entire rain fall from January 1 to May 13 was 7.61 inches, while the average for 20 years has been 18.62. The fall was only .95 in March and .65 in April.

In order to advertise my work I will make cabinet photographs for the next 15 days at \$3 per dozen, then my price will go back to \$4. Satisfaction guaranteed. A. J. Earl, Stanford.

OUR little favorite, Gracie Darling Rochester, has sent us a beautiful plate of butter made from the milk of the Captain's Guernsey cow, which gives four gallons of almost pure cream a day.

W. L. DAWSON, who made a good race for the democratic nomination for sheriff three years ago, is in the ring again and says he is going to get there this time. He is a good democrat and a deserving gentleman.

The information is conveyed to us through a friend at Bowling Green that Mr. R. H. Crow, formerly of this country, is rejoicing in the advent of a 10-year-old boy, and that the little fellow and his mother are doing well.

By a change in the schedule on the K. C., the mixed train now departs at 7 a. m., and returns at 4:45 p. m. It is stated on first-class authority that the fast train will not be put on from here at all this summer, as it proved a loosing venture last.

SEVERAL of the Rowland boys played a prank on Tommy Ball Wednesday night by taking the keys out of his store door, where he had left them, and making that gentleman guard his store the night long. Mr. Ball was a very mad man when he found out a job had been put up on him.

CHARLEY FOWLER is congratulating himself that it is better to be born lucky than rich. He was prevented from going out on his regular engine on the day of the collision on the C. S. and the fireman who went in his place got killed instead of him. Mr. Fowler tells us that in the last few weeks 14 engines have been wrecked on the Cincinnati Southern, some of them ruined other than for junk purposes.

BRICK MACHINE.—In order to meet the large and increasing demand for brick here, Mr. W. F. Ramsey has purchased and is now placing a brick machine in his yards in the west of town capable of making 30,000 brick a day by steam and 20,000 by horse power. He will begin work it Monday and make 750,000 in addition to the 60,000 already made by the old process. There is more energy and enterprise to the square inch in Mr. Ramsey than any man in town, notwithstanding he has been a hopeless cripple since early youth. With a pair of good legs it would be impossible to hold him down at all.

SKIPPED.—Jim Platt, Wes Martin and Jim Crabtree were arrested by Sheriff Newland for damaging the property at Neal's school-house and brought here for trial yesterday. It seems that out of pure devilment the fellow, Platt, last Sunday kicked over the stove, broke out several window lights and did other damage. When brought into court he confessed his crime and exonerated the other boys. The judge promptly fined him \$10, and the fellow offered to pay \$5, stating that this was all the money he had. It was refused and Platt, not wishing to go to jail, picked his chances and lit out. He works on Smith Baughman's farm and is a native of Dogwood, Wayne county, where he is said to have a most unsavory reputation.

WATER WORKS.—The question of supplying Stanford and Rowland with water from the Logan's Fort Spring has been investigated and found to be perfectly feasible. The water would run down itself to the first stories of the houses on Main street, but by building a reservoir on the hill opposite the spring and forcing the water to it with an engine or hydraulic ram, the pressure would be sufficient to throw it to the top of the highest house in town. It is estimated that it will cost \$7,500 to put the thing in shape with a main to both towns. Of this amount prrtyes have agreed to take \$2,500 in stock and Councilman Miller proposes to ask at the next meeting of the council that the city subscribe a like amount to the capital stock, bonds to be issued to raise the money. It is stated that the L. & N., which has to send an engine to the spring daily for water for its employees at Rowland, will pay enough rental almost to run the works. Persons competent to estimate think that the stock will pay a dividend of 25 per cent, and as for the security against fire the works would be almost incalculable. The council would like to have an expression of the tax payers on the subject by the 6th of June and the columns of this paper are open for a discussion of the question.

CHURCH AFFAIRS.

The next Baptist Convention will be at Fort Worth Texas in May, 1890.

Dr. Evans says that "Children's Day" will be observed at McKendree next Sunday.

The next meeting of the Kentucky State Association will meet in the new \$25,000 Baptist church at Maysville, June 20th.

It is telegraphed from Richmond, Va., that 40,000 people witnessed the immersion of 120 negroes in James River last Sunday.

The Southern Baptist Convention declared straight out for the prohibition of the liquor traffic and opposed license in any and all of its forms through which men buy the right to destroy human hope and happiness and blight human souls as an offense against public morals and a sin against God. The good Baptist brother will continue to keep his bottle all the same.

MAT COFFLER, a colored damsel, got on a tear a night or two ago and fell in St. Asaph creek, cutting a large gash in her head and nearly fracturing her skull.

The whole face of nature wears a happy aspect since the welcome rains of this week. They were hardly sufficient for the needs, but they will do for the present.

AN experienced miller and carder, Mr. P. Howell, of Kinman, Kas., has purchased the Woolen Factory here and will start up the machinery next Monday. Custom corn grinding and wool carding will be promptly done and the firm offers its services to the public in another column.

BIG FORTUNE.—Mr. J. M. Martin has received information that there awaits in Scotland \$24,000,000 for those who can prove their rights as heirs of a certain Mr. McKinzie, who came from there to Amherst C. H., Va., perhaps 150 years ago. A son of the old gentleman, Alexander by name, settled in Kentucky 100 years ago, and of his grand-children Mr. Martin married one and Mr. Reuben Williams another. They are unable to ascertain the name of Alex McKinzie's father and if any person in this section or Virginia can give them the information it will be thankfully received.

BRO. BARNES.—As will be seen by his letter, Bro. Barnes has decided on a new departure and is coming to Kentucky to lecture in order to enable him to pay for his and his children's homesteads on Sanibel Island. This will surprise many people, but the good evangelist won't care for that, if they will turn out to hear him. He will preach, as will be seen, at the Court-House here Sunday, 26th at 3 p. m., and on the Monday and Tuesday nights following will deliver his lectures at the Opera-House on the "Lost Tribes of Israel." Admission 25 cents. He will go from here to Lancaster, Richmond and to most of the Kentucky towns in which he has preached.

Mr. W. H. MILLER says the Stanford & Crab Orchard turnpike directors have no intention of building the change of route they propose and have no authority to do so if they did. Their object he says is simply to thwart him in the building of his cut off and he intends to fight them to the bitter end. He asks us to copy Ch. 540 of the Acts of 1876 from which they affect to believe they have the right to change the location. It is as follows: "§ 1. The board is hereby authorized to change the location and route of the turnpike leading from Stanford to Crab Orchard for the distance of about one mile; which change of location will be from the town limits of Stanford to the house of Franklin Owsley, provided the president and directors of said board shall locate the route of the contemplated change on the most practical ground to avoid the proximity to the railroad." Mr. Miller claims that they are not authorized to make the change from any point except from the town limits, which at the time of the passage of the act was only a third of a mile from the court-house.

MATRIMONIAL MATTERS.

Louisa Lehman, a widow of three-score years and ten, has just sued Samuel Cunningham for breach of promise at Galena, Ill. She wants \$10,000 damages.

Last week Phil Harvey and Sallie Henderson, of Oakland, 15 and 16 years respectively, ran off and got married. That night Sallie got mad with her youthful husband and left him, swearing she would never return and she hasn't yet.

DEATH'S DOINGS.

W. H. Chatfield, of Chatfield & Woods, paper dealers in Cincinnati, dropped dead Monday in New York.

The directors of the Boyle & Lincoln turnpike passed highly eulogistic resolutions on the death of their late president, R. W. Givens.

Rufus C. Bywater, an old and respected citizen of the Walnut flat neighborhood, died yesterday morning of numerous infirmities connected with his advanced age. Mr. Bywater moved to this county from Virginia some eight years ago and has made a most excellent citizen. He was a member of the Methodist church and had done a great deal to further that cause. His funeral will be preached at 9 o'clock this morning by Dr. Morris Evans and his remains will be laid to rest in Buffalo cemetery at 2 p. m., if his son who is in Virginia arrives.

The Kentucky Pharmaceutical Association.

CRAB ORCHARD, May 16.—The business of the Association proves to be much larger than I expected and will not be able to get through in time to deliver report in person at 1 p. m.

The Association met in the parlors of the C. O. Springs Hotel at 3:30 and was called to order by President W. S. Johnson, of Henderson. Dr. Hunt, of the Baptist Church, being present, was called upon to open the meeting with prayer.

Roll was called by the secretary and 20 members answered to their names.

The first session was devoted to receiving reports of officers and committees.

Dr. Carpenter, of Stanford, was presented as a delegate from the Kentucky State Medical Society, advocating concert of action with the Pharmaceutical Association in amending the present pharmaceutical law making it applicable to the entire State. His speech was appreciated and it is understood that a lively and sincere petition to Mr. G. to re-consider is in circulation and will be presented next Sunday. A full attendance of the congregation is requested.

The evening session was devoted to reading reports of delegates and special committees.

The new members received during the two sessions are 44, making the total 460. With members, reporters and exhibitors the hotel register shows 53 people. Mr. King is giving us first-class attention and is feeding us in good style, and every indication is that we shall have a decidedly pleasant meeting. Will hold till Friday p. m.

W. B. McROBERTS, Sec'y, K. P. A.

CHURCH AFFAIRS.

The next Baptist Convention will be at Fort Worth Texas in May, 1890.

Dr. Evans says that "Children's Day" will be observed at McKendree next Sunday.

The next meeting of the Kentucky State Association will meet in the new \$25,000 Baptist church at Maysville, June 20th.

It is telegraphed from Richmond, Va., that 40,000 people witnessed the immersion of 120 negroes in James River last Sunday.

The Southern Baptist Convention declared straight out for the prohibition of the liquor traffic and opposed license in any and all of its forms through which men buy the right to destroy human hope and happiness and blight human souls as an offense against public morals and a sin against God. The good Baptist brother will continue to keep his bottle all the same.

NOTICE.

We have purchased the Stanford Woolen and Mill and fitted it with new and first-class machinery and will begin on

Saturday, May 18th, 1889,

To do custom grinding and carding. Our

Mr. Howell has had over 40 years' experience at the

business and he has acquired a thorough knowledge of both the branches. In addition there will

be an expert to assist him in carding. Give us a

trial. The highest market price paid for good

white corn.

Stanford, Ky.

FARM AND TRADE ITEMS.

Wool wanted, 100,000 pounds. A. T. Nunnelley.

T. B. White sold to Charles Helm, of Boyle, a fine gelding for \$200.

—WANTED—25 heifers to graze on good grass and clover. G. A. Swinebroad.

—Robert Land sold to Isaac Herrin, of Rockcastle, a bunch of yearling heifers at \$12.

—Bill Dillon sold to Cress, of Rockcastle, a pair of aged mare mules for \$300.

—The phenomenal 3-year-old, Czar, died at Council Bluff, Ia. He belonged to Winters, of California, and was valued at \$25,000.

—Exile won the Brooklyn Handicap, Prince Royal two lengths and Terra Cotta a dozen lengths behind. Time 2:074, distance 1 1/4 miles.

—M. F. Elkin bought of A. Caminisch a lot of fat

Beauty

Is desired and admired by all. Among the things which may best be done to enhance personal beauty is the daily use of Ayer's Hair Vigor. No matter what the color of the hair, this preparation gives it a lustrous and pliant that adds greatly to its charm. Should the hair be thin, harsh, dry, or turning gray, Ayer's Hair Vigor will restore the color, bring out a new growth, and render the old soft and shiny. For keeping the scalp clean, cool, and healthy, there is no better preparation in the market.

"I am free to confess that a trial of Ayer's Hair Vigor has convinced me that it is a genuine article. Its use has not only caused the hair of my wife and daughter to be

Abundant and Glossy,

but it has given my rather stunted mustache a respectable length and appearance." — R. Britton, Oakland, Calif.

"My hair was coming out (without any assistance from my wife, either). I tried Ayer's Hair Vigor, using only one bottle, and I now have as fine a head of hair as any one could wish for." — R. T. Schmitt, Dickson, Tenn.

"I have used Ayer's Hair Vigor in my family for a number of years, and regard it as the best hair preparation I know of. It keeps the scalp clean, the hair soft and lively, and preserves the original color. My wife has used it for a long time with most satisfactory results." — Benjamin M. Johnson, M. D., Thomas Hill, Mo.

"My hair was becoming harsh and dry, but after using half a bottle of Ayer's Hair Vigor it grew black and glossy. I cannot express the joy and gratitude I feel." — Mabel C. Hardy, Delavan, Ill.

WM. ADAMS & SON,

42 BROADWAY,

LEXINGTON, KY.

THE PRESS CONVENTION.

Programme For the Meeting of the Kentucky Editors.

Arrangements are rapidly perfecting in Owensboro for the entertainment of the Kentucky Press Association on the 6th and 7th of June. The people of Owensboro are thoroughly alive to the importance of this gathering, and with marked unanimity are preparing to make the stay of the editors in their midst as pleasant as possible.

It is calculated that there will be 150 of the editorial party, inclusive of ladies and from assurances every day arriving it is evident that this is not an over estimate. The coming meeting is apparently anticipated with quite as much interest by the newspaper men throughout the State as by the citizens of Owensboro.

The session of the association will be held at Temple Theatre. The following will be the programme:

THURSDAY, JUNE 6—1:30 P. M.
Annual Address of the President—E. Polk Johnson, Frankfort Capital.

Secretary's Report—W. P. Walton, Stanford Interior Journal.

Treasurer's Report—Ben Harrison, Henderson News.

Enrollment of new members and payment of annual dues.

Election of officers.

Resolutions, communications, etc.

"The Relation of the Press to Public Business Interests,"—Young E. Allison, Louisville.

"What is Correct Journalism?"—James M. Richardson, Glasgow Times.

Evening Session—8 P. M.
Address of Welcome—Reuben A. Miller, on behalf of the citizens of Owensboro.

Response—E. Polk Johnson.

Annual Oration—Emmett G. Logan, Louisville Times.

"Modern Society and Its Relation to Journalism—Miss Dolly Higbee, Louisville Courier-Journal.

Friday JUNE 7—2 P. M.
Annual Poem John G. Craddock, Paris Kentuckian Citizen.

"Various Practical Matters on the Business Side,"—Jas. R. Bettis, (President National Editorial Association Little Rock Ark., Democrat.

"Advertising Rates"—Sam O. Roberts, Lexington Leader.

"Legitimate Circulation"—Chas. M. Meacham, Hopkinsville Kentuckian.

"The National Editorial Association"—B. H. Herbert, National Editorial Journalist, Chicago.

"The Journalist as a Reformer"—Edward O. Leigh, Paducah Standard.

Afternoon Session—1:30 P. M.
The Law of Libel"—R. M. Kelly, Louisville Commercial.

"Mountain Journalism"—E. C. Colgan, Pineville Messenger.

"Legal Advertising"—Green R. Kellar, Carlisle Mercury.

Adjournment, *sine die*.

The session of the association will be open to the public at all times, but the citizens are especially invited to be present Thursday evening, June 6, at 8 o'clock, when the editors will be formally welcomed to the city by Mr. Reuben A. Miller. Following the exercises will be a general reception, when it is desired that the citizens of Owensboro shall personally meet all the visitors.

The business of the association will be concluded at the afternoon session of Friday, June 7th. Then will begin the festivities.

At 8 P. M. there will be a banquet at the Front-street army. Three hundred plates will be laid and in addition to the 150 guests, the same number of Owensboroans, composed of ladies and gentlemen, will be seated. At the banquet there will be six toasts, as follows: "The Newspaper," "The Old Commonwealth," "The Rural Rooster," "The Local Press," "The Women of Kentucky" and "Our Guests." Hon. Henry Watterson will respond to the first and Gov. S. B. Buckner to the second. The other speakers of the evening will be announced later.

The same evening there will be a grand ball in the city, at which the beauties and belles of Owensboro and surrounding country will join the gentlemen and ladies of the press in tripping the light fantastic.

The following morning (Saturday June 8th), at 9 A. M., the editorial party will leave on a river excursion, Col. W. W. Hite, president of the Louisville Packet Company, having tendered one of the elegant steamers, going to Evansville, where a special train, tendered by Mr. S. R. Knott, traffic manager of the L. & N., will be in waiting for them, and they will leave at once, going via Guthrie for the Mammoth Cave. After seeing the cave they will disperse and return to their homes.—Owensboro Messenger.

—Mike Burke, a one-arm tramp, camped with his wife on the side of the road near Harrodsburg and his blanket catching fire during the night he was burned so badly that he died.

—At Rogerville a gang of men surrounded the house of Tom Pelton with the intention of White Capping him, Pelton opened fire on the crowd killing two and scattering the others.

—Mike Burke, a one-arm tramp, camped with his wife on the side of the road near Harrodsburg and his blanket catching fire during the night he was burned so badly that he died.

—At Rogerville a gang of men surrounded the house of Tom Pelton with the intention of White Capping him, Pelton opened fire on the crowd killing two and scattering the others.

STANFORD, KY., MAY 17, 1889.

SUPPLEMENT.

WILLOW GROVE.—A horse ridden by John Kelley the other day fell and rolled over on him, fearfully bruising his leg, but fortunately not breaking it. An old lady in this neighborhood, whose word was never doubted, says she has a shepherd dog that acts as general superintendent in her poultry-yard, containing 300 or 400 chickens, and when the dog finds one with the gapes or any other disease which chickens are heir to, he immediately catches it and takes it direct to her for "medical treatment." His sagacity is shown in a thousand other ways daily, but this is only a sample of 'Bob's' intelligence. There are fine horses in this neighborhood "worlds without end." In sight of this place is the training stable of Abe W. Smith, in which there are a number that can go in 2:40 and better, among them Quiniine S. and Mattie H., to both of which Geneva S., 2:19½, is a full sister. The trainer, Charles W. Rogers, knows his business. R. Gentry & Son have about 40, every one of them the get of the famous Gambetta; only 10, however, in training. A. E. Hundley has a number of good ones, among them one of special mention, a 2-year-old Second Jewel filly, the best saddle animal in the State, age taken into consideration.

A young Romeo called upon the object of his affections and began telling the state of his mind toward her. She said: "Hush! hush! you scare me!" The poor fellow concluded he was striking on the wrong key to make music and so hushed. There was a solemn pause and a dead silence for a minute. The fair damsel, not willing for things to take such an unfavorable turn, looking slyly around at Romeo said, in a low tone, "Scare me again." He took courage and scared her again.

How dear to my heart is the school I attended and how I remember so distant and dim that boy Bill and the pin that I bended, and carefully put on the bench under him. And how I recall the surprise of the master when Bill gave a yell and sprang up from the pin, so high that his bullet-head smashed up the plaster above, and the scholars all set up a din. That active boy Billy; that high-leaping Billy; that loud shouting Billy who sat on a pin.—Ulster News.

Maud Muller was fined \$15 the other day in Kansas City for being drunk. The Judge wasn't as kind to Maud as he used to be.

A. C. SINE.

J. N. MENEFEE.

SINE & MENEFEE,
Dealers In—

SEMI-WEEKLY INTERIOR JOURNAL

STANFORD, KY., MAY 17, 1889

W. P. WALTON.

THERE is a lady in Adair who is just 22 years old, but who has passed already through a lifetime of misery. Her parents died in her infancy and at an early age she ran off and married Lewis McWhorter against the wishes of her uncle, with whom she lived. They went to Albany to live, but their happiness was of short duration, for the young husband was shot dead one day by a cousin of his wife. In due course of time, says the Columbia Spectator, she married the second time and two children were the fruits of the union; but they only lived a short time. After the death of the children the husband died, and the wife followed him to the grave, widowed for the second time almost in the morning of life. Truly indeed is she woman of sorrow and acquainted with grief, but she is not utterly cast down, though most people would die if forced to drain the bitter cup of sorrow to such terrible dregs.

A team of four cows appeared in Bellevue, Idaho, not long ago, having been driven from Nebraska, a distance of 1,000 miles. They had acted as motive power for a prairie schooner, and had also furnished milk and butter for the farmer and his family en route. They were in good condition, with the exception of their feet, which needed shoes badly.

Pennsylvania will vote on prohibition on June 18th. The proposed amendment absolutely and forever prohibits all traffic in spirituous liquors and beverages. Connecticut also will vote on the question this year, allowing, however, the manufacture of intoxicating liquors to go on for sacramental, medicinal, scientific, mechanical and art purposes.

"You have been engaged before?" he asked, with a sinking heart. "Yes, my own," murmured Gwendolen, reassuringly, "three times, but they didn't count," she added, with a touch of reminiscent sadness in her voice, "they winter killed, every gaul blamed one of them."

"You are late this afternoon," said the music teacher to the banged and powdered young lady pupil. "Yes," said the damsel, swishing down on the music stool. "Ma was so busy with her household duties that I had to wait nearly half an hour for her to sew up a rip in one of my kid gloves."

A man who drinks liquor to an excess has got very little if any more sense than an ostrich. For instance, he will go hide himself from the view of the public while he swallows it, but when he has got enough in his belly to meet the requirement of his taste he can no longer keep his secret. Everybody knows who sees him, that he's got his tank full, no matter where he filled it, or how. The ostrich imagines he's hid when, pursued by his enemies, he sticks his head in the sand.—Barboursville News.

The Rev. Dr. Edward Beecher, brother of the late Henry Ward, who, in his 86th year, is rapidly recovering from the amputation of one of his legs, says that in his opinion the vitality and endurance which he possesses are due entirely to the care he has taken of his health. He never used tobacco nor drank ardent spirits in any form, and from boyhood has never permitted a day to pass without indulging in some form of exercise.

Cowboy (who has got the drop on an Oklahoma boomer)—"Mosy off this claim I'll give you just half a minute to git."

"What'll you do if I don't?"

"I'll blow your d—n brains out."

"Blow away, I would never have been down in this God-forsaken wilderness if I'd had any."—Chicago Herald.

"O, look, George, they are hanging an ice-cream sign across the street!" The words were few and softly spoken, and yet they took all the brightness out of the spring sunshine, all the music from the song-birds' notes, all the melody from the vernal zephyr and all the change out of George's pocket.

STANFORD ROLLER MILLS.

All persons wishing a pleasant life and well pleased wife let them use Patent Flour made at Stanford Roller Mills. Call for it at your grocery, and if they have not got it on hand, urge them to keep it, or get an order from them and get it at the Mill and I will guarantee a pleasant and interesting family.

SEMI-WEEKLY INTERIOR JOURNAL

STANFORD, KY., MAY 17, 1889

E. C. WALTON, Bus. Manager

The real Shetland pony is only 30 or at most 40 inches high. Those commonly seen in this country are from the north of Ireland, being bred with the horses there, and are larger than the real Shetland, for the genuine pony is difficult to rear. The country of which he is a native is bare, and the farmer is sharp, and when the little creatures survive the rigors of the climate and the effects of having but little to eat, the farmer values him so highly that he only sells him at a high price. It costs a great deal to ship them and they die on the voyage, all of which goes to account for there being so few of them among us.

RETURNED.—Major Jim Smith created quite a sensation by descending from the stage as it reached town last Friday evening. We had no sooner notified him that his subscription to The Kicker had expired than he handed us two bright silver dollars for a renewal. The major has put in the last year in State prison, having been sent there by mistake, as his friends are satisfied. He served his term like a man and has returned to the bosom of his family and society. He has cards out for a "high coffee" day after tomorrow and the elite will be there in legions.—Arizona Kicker.

Four gentlemen engaged in commerce in an eastern seaport city were heated unbelievers in the common superstition regarding Friday as an unlucky day. They determined to show their contempt for and explode the silly notion. So they began to build a ship on Friday, finished her on Friday, launched her on Friday, named her Friday, hired a captain on Friday and sent her to sea on Friday. The ship was never heard from.—St. Louis Republic.

Opium is gotten by cutting the capsule of the poppy flower with a notched iron instrument at sunrise, and by the next morning a drop or so of juice has oozed out. This is scraped off and saved by the grower and after he has a vessel full of it it is strained and dried. It takes a great many poppies to make a pound of opium, and it goes through a number of processes before it is ready for the market. In a liquid state it looks like a dark strawberry jam.

America publishes more papers than all the rest of the world combined. Last year its 17,107 periodicals printed the enormous number of 2,959,556,500—enough to supply every soul on earth with two newspapers.

A newspaper in Ohio recently brought suit against 43 men who wouldn't pay their subscriptions, and obtained judgment in each case for the amount of each claim. Of these 28 made affidavit that they owned no more than the law allowed, thus preventing attachment. Then under the decision of the Supreme Court they were arrested for petty larceny and bound over in the sum of \$300 each. All but six gave bond while six went to jail. The new postal law makes it larceny to take a paper and refuse to pay for it.—Toledo Blade.

WOMAN'S STRONG LOVE FOR WHITE.—Upon entering the world it is her first robe. In a white gown she is brought to the baptism. She says her prayers in white and kneels for confirmation in spotless robes. She is married in white and after that she lives over the white garment days of her youth in the robes she makes for her children, and when her task is ended she folds her white hands and lies down to sleep in a shroud as white as her soul.

"Blessed is the peacemaker" is a beautiful sentiment, but is not always conducive to longevity. At Port Huron, Dak., Harry Axworthy, a young man whose heart was filled with the milk of human kindness, endeavored to separate two quarreling companions, when one of them savagely turned upon him and plunged a knife in his brain.

Dudes, so far as can be definitely ascertained, are the children of that numerous class of women who coddle pet-dogs and turn their own progeny over to hired nurses.

SEMI-WEEKLY INTERIOR JOURNAL

STANFORD, KY., MAY 17, 1889

Says a Scotch clergyman: An elder was reading and commenting upon the 34th Psalm, and the book being printed in the old style, when he came to verse 13 he read: "Keep thy tongue from evil and thy lips from speaking guile." He read it "squeaking girls," and then remarked by way of exposition: "It is evident from this passage that Scripture does not absolutely forbid kissing, but, as in Christianity everything is to be done decently and in order, we are here encouraged by the passage to choose rather those girls that take it quietly and not those that squeak under the operation."

The American Cultivator says: "It is not likely that civilization loses anything by the extinction of the buffalo. All that is good of the animal for civilized man is found in crossing it with domestic cattle. Its meat is better than that of the buffalo and its carcass is larger. The robe of a cross bred buffalo is more valuable than that of the wild animal, because its fur is distributed evenly instead of being bunched in a heap at the mane. As the hide of a cross bred buffalo is worth \$75, it is well worthy of being bred for that alone."

"No, William," she said coldly, with a sidelong glance to note the effect of her words, "I cannot be your wife. You smoke and you sometimes drink. I have registered a vow not to marry a man who has either of the vices."

"All right, Maria," was the humble reply. "And now will you please ask your younger sister Lula to come down stairs a moment? She said, when she kissed me good-bye last night, that she would gladly have me if you refused."

Opal is worth \$15 to \$40 per carat. Cat's eye is worth \$15 to \$50 a carat. Oriental ruby is worth \$100 per carat. Emerald is worth \$50 to \$200 per carat. A diamond is worth \$50 to \$150 a carat. A sapphire is worth \$100 to \$150 a carat.

The great ailanthus trees in the White House grounds have been cut down by order of the Washington board of health, they being regarded as unhealthful. They were brought from Chicago by Commodore Wilkes 56 years ago, when they were mere saplings.

Since the purchase of Alaska it can be said of the United States what has been said of England—that the sun never sets on her domain. At sunset in Alaska the next morning's sun is an hour high in Maine.

—There was a fall of 10 inches of snow in Dakota Tuesday, which, it is claimed will prove beneficial to the wheat crop.

—It is said that a person weighs two pounds less at the top of the great Eiffel Tower at Paris than at the bottom, owing to the difference of atmospheric pressure.

—Castleton, Vt., has the only slate pencil mill in the United States. The daily production is 30,000. One man can sharpen 8,000 pencils daily on his emory wheel.

—A three-ton boat, in which Captain Joshua Slocum, with his wife and two children, left Parauagita, Brazil, on June 24 last, arrived at Staten Island last week after a voyage of over 7,000 miles.

—It is stated that the L. & N. will soon commence the building of their road from Cumberland Gap to a connection with the Norfolk & Western Railroad at Big Stone Gap, Va., previously mentioned.

—The Interstate Commerce Commission decides that if separate cars are provided for colored passengers traveling on first-class tickets the cars thus set apart must be equal in comforts, accommodations and equipments with those provided for white passengers.

—A brakeman caught under a red-hot fire box in a wreck near Denver, pulled another brakeman and while one-half of his body was roasting from the heat of the engine, dictated his will, leaving \$15,000 to his two brothers in San Francisco. He gave instructions regarding his funeral, offered a prayer and died.

The Pride of Woman.

A clear pearly and transparent skin is always a sign of pure blood, and all persons troubled with dark, greasy, yellow or blotched skin can rest assured that their blood is out of order. A few doses of Beggs' Blood Purifier & Blood Maker will remove the cause and the skin will become clear and transparent. Try it, and if satisfaction is not given it will cost you nothing. It is fully warranted. A. R. Penny, Druggist.
